In addition to rustic furniture like the table (left) in this space from Kris Brigden, accessories like lanterns and pillows with nature themes can add to the mountain look.

For a taste of Aspen that is a little more contemporary like this kitchen (right) from designer Catherine Lucie-Horber, choose one piece with a rustic look and keep the rest of your pieces contemporary.

If you love the mountains, but still want all the modern comforts, try adding a little (or a lot) of Aspen to your space.
